THE OPHIR WINZE.

Nearly 100 Feet Deep and Bottom in Solid Ore.

Superintendent McKinty stated to a Chronicle representative that the outlook in Ophir today was better than ever in the history of the mine. A statement like this from Mr. McKinty who is known for his very conservative remarks, is one of the most encouraging items that we have published for years.

It shows that the stockholders of Ophir have not misplaced their confidence in the mine, and to those who have had faith and the courage of their convictions in the ultimate uncovering of an ore body, it looks as if their faith was about to be rewarded. In the minds of every old Comstocker there has always been the belief that an ore body existed in Ophir on account of its adjoining the big bonanza in Con Virginia and the late discoveries of bodies of ore but prove this theory.

The winze from the 2000 level is now nearly completed to the 2100 level and when they start to sink down to the 2200 level in solid ore the people will then begin to realize the size of the ore body. They are already through 100 feet of ore and are opening another 100 feet deeper. This will open up an ore body that will bring millions of dollars in the shape of dividends to the stockholders of Ophir.

Body Torn by Coyotes.

Scattered over an area of 100 yards the bones and fragmentary remains of a human body were found Saturday this side of Red Mountain, in the Silver Peak country. The body had been eaten, torn and scattered by coyotes. The bones of one leg in a leg of the trousers was found, and after a little search the coat enclosing some other bones quite a distance away. In the pocket was a piece of paper which proved to be a time check made payable to H. Goodshaw, and signed by T. L. Oddie. Another name was on the paper, but it could not be made out. Under a glass it appears to be Warbly. The check was dated December 31, 1903. About a year ago a letter was received in Tonopah from a California woman named Goodshaw asking about her son, and he is supposed to be the one found dead. Tonopah Sun.

Want Another Judge.

The members of the Legislature from Washoe and Churchill county will in all probability introduce a bill creating an associate Judge for the District. From what can be learned there is need of such a law and the creating of an associate Judge for the District as Judge Currier has more work in front of him than can be attended to in the next three months, and plenty more in sight.

With the increased population, the work along the canal which will take several years to finish, and the amount of work that is ahead it seems that the claim for another Judge is rightly based. Churchill county has her troubles in the courts and her rights need protection.

Ore Shipments.

The ore shipments from Tonopah over the Tonopah railroad last week were as follows: Tonopah Mining company 1568 tons; Tonopah Belmont 50 tons; Tonopah Extension 80 tons; Montana Tonopah 118 tons; Bowes lease 32 tons; Combination 60 tons; Lothrop & Davis 11 tons; Riley & Krise 13 tons; Sandstorm 20 tons; Florence 138 tons; January 9 tons, Nevada Alpine 20 tons.

SENATORIAL TROUBLES.

Rumor of Various Things Going on in the Republican Camp.

According to reports rife on the streets last evening all was not as harmonious in the Republican camp as has been reported.

The shadow of the candidacy of the Hon. T. B. Riekey is looming over the horizon of Nixon's hopes and fears and has sent a shiver down the line. There was talk yesterday that the Sunday night caucus bound up all the Republican forces and the managers are giving out that they have 31 names signed to a pledge to vote for Nixon. There are Republicans who deny this and others who say they signed the caucus role with the direct assertion on the part of the Nixon managers that there would be no other candidate in the fight and that neither Stewart or Riekey were candidates. As far as Stewart is concerned this was true as he has written to parties in this city absolutely declining to be a candidate.

Riekey's friends, however, insist that when the time comes he will be a candidate and come into the fight with a dash that will astonish the boys.

The members who signed the call under the idea that Riekey was out of the fight do not feel that they are bound to it if Riekey comes in.

Again there are a great many Republicans in the rank and file that believe that the election of a man who has not voted the party ticket for fourteen years until last fall, is really not the kind of timber they would like to see there.

Some think they see a plot to elect Sparks in the midst but the Governor wants it distinctly understood that he is not a candidate and would not accept the four necessary votes from Republican sources.

It is argued with a show of reason that if any Republican crossed the line and went to the Democratic camp to vote for Sparks he would ever bear the brand of a traitor to his party in defeating the party when it had the requisite votes to elect. Again if any Democrat voted for Nixon it would bear the brand of a purchase as the Nixon managers have bragged that they could buy certain Democrats.

The only way that Riekey could be elected would be for the Democrats and Fusionists to go over in a body and vote for any regular Republican who had the sand to give Nixon battle. The friends of Riekey say that he is the man and that he will be here in a day or two and ask the party to elect a regular old line Republican, himself or anybody who has been in the party right along and not a tenderfoot who has not voted the party ticket for fourteen years. There are certainly lively times ahead.

Shooting Was Accidental.

The Wadsworth authorities have decided that "One Eyed Smithie," who shot Ed. Kelly in the Daly saloon at Derby Friday evening did not intend to fire the shot, and consequently have released him from custody. Kelly is still alive and has a good chance for recovery. He was shot clear through the body, and the doctors thought that he would die in a few hours, but the bullet did not seem to strike a vital part and it is now thought that with good care he will get well.—Journal.

FIRST IMPRESSIONS

are based upon personal appearance. Much as we say about judging a man by his clothes, we, all of us, are guilty of so doing. It is human nature. Go into a business office for the first time and you will realize to the fullest, the importance of good clothes. They demand respect. International Garments create a favorable impression and lend an air of distinction—generally essential to business success.
